Note of Appreciation

Canada owes the success of its statistical system to a long-standing cooperation involving Statistics Canada, the citizens of Canada, its businesses, governments and other institutions. Accurate and timely statistical information could not be produced without their continued co-operation and goodwill.

Note de reconnaissance

Le succès du système statistique du Canada repose sur un partenariat bien établi entre Statistique Canada et la population, les entreprises, les administrations canadiennes et les autres organismes. Sans cette collaboration et cette bonne volonté, il serait impossible de produire des statistiques précises et actuelles.

Introduction

This report consists of information collected from private commercial business organizations, as well as the Canadian Broadcasting Corporation, all licensed to provide radio and television services in Canada. Total air time sales for the broadcasting industry reached \$2.6 billion, the CBC accounting for 13.0%. Air time sales represented 91.8% of revenues received by broadcasting systems.

For the year ended August 31, 1996, total operating revenue of \$2.39 billion was received by the private broadcasters, up 3.4% from the \$2.31 billion for the same period in 1995.

Net profit after income taxes was \$27.1 million. Depreciation and interest expenses accounted for \$87.4 and \$139.5 million respectively.

The industry made international payments of \$70.8 million more than it received in 1996 for rights, royalties, advertising and other services. Only advertising showed a positive balance of \$26.9 million.

CONCEPTS

The survey, from which this report is produced, covers all commercial broadcasting stations, the regional television network, Global Communications Limited and two national networks, CTV Television Network Limited and the Canadian Broadcasting Corporation (CBC).

Cable television, Pay TV and non-commercial broadcasting stations operated by religious groups, educational institutions and provincial governments are not included in the industry totals, but are represented on separate tables in the publication.

To assist in the completion of the annual return, the "Uniform Code of Financial Accounts for the Radio and Television Broadcasting Industry" developed by the CAB was recommended to respondents as a useful guide.

The book depreciation published here provides a link to previously published data on profitability. Book depreciation is now published in tables 10, 11, 16 and 17 showing details of property, plant and equipment. Prior to 1987, these tables used standardized depreciation.

Introduction

Ce rapport contient des informations recueillies auprès des entreprises privées et de la Société Radio-Canada, détentrices de permis de radiodiffusion et de télévision au Canada. Les ventes de temps d'antenne sont la principale source de revenus de l'industrie de la radiodiffusion et télévision, représentant 91,8 % des revenus totaux. Elles ont atteint 2,6 milliards de \$, 13,0 % de ce montant étant celles de la SRC.

Pour l'exercice financier terminé le 31 août 1996, des revenus d'opérations de l'ordre de 2,39 milliards de \$ ont été enregistrés par le secteur privé comparativement à 2,31 milliards de \$ en 1995, soit une augmentation de 3,4 %.

Le secteur privé a enregistré un bénéfice net après impôt de 27,1 millions de \$. L'amortissement et les intérêts représentent 87,4 et 139,5 millions de \$ respectivement.

L'industrie a versé 70,8 millions de \$ de plus en paiements internationaux à des non-résidents qu'elle n'en a reçus en 1996 pour les droits d'auteurs, les redevances, la publicité et autres services. La publicité fut le seul poste à afficher un solde positif de 29,9 millions de \$.

CONCEPTS

L'enquête servant de base à la présente étude porte sur toutes les stations commerciales de radiodiffusion, sur le réseau de télévision régional, Global Communications Ltd. et sur deux réseaux nationaux, CTV Television Network Ltd. et Radio-Canada (RC).

La télédistribution, la télévision payante et les stations non commerciales de radiodiffusion exploitées par des organisations religieuses, des établissements d'enseignement et des administrations provinciales ne sont pas prises, compte dans l'industrie total, mais sont représenté dans les tableaux individuels dans cette publication.

Le guide intitulé "Méthode uniforme de classification des comptes, radio et télévision", mis au point par l'Association canadienne des radiodiffuseurs, a pu aider les répondants à remplir leur rapport annuel.

L'amortissement comptable constitue un lien avec les données sur la rentabilité publiées antérieurement. Cet amortissement comptable est maintenant publié aux tableaux 10, 11, 16 et 17, montrant les détails des terrains, bâtiments, installations et matériel. Avant 1987, ces tableaux contenaient l'amortissement normalisé et ne pouvaient être liés aux données utilisant l'amortissement cumulé pour 1987 et les années ultérieures.

SURVEY METHODOLOGY AND QUALITY

To reduce the reporting burden for respondents, the reporting requirements of Statistics Canada, Canadian Heritage are met by a single annual return.

While a single return ensures consistency of reporting, errors may occur in any phase of a survey operation. To minimize these errors returns are checked for consistency and compared with audited financial statements. There are also checks on data input, analysis and output.

The Survey

The radio and television broadcasting survey is conducted by Statistics Canada in cooperation with the Canadian Radio-television and Telecommunications Commission. The survey provides data for the system of national accounts, policy analysts, financial analysts, broadcasters and all those with an interest in broadcasting and telecommunications. Data are compiled for the broadcasting year, September 1 - August 31.

The present questionnaire was developed in consultation with the Canadian Heritage, Canadian Association of Broadcasters and the CRTC. Each year the questionnaire is reviewed and changes made to meet new technological innovations and legal requirements.

The business organization's financial data are recorded on the Balance Sheet, Income Statement and Cash Flow Statement in the annual return. Balance Sheet data are published in Table 3, according to the head office location of the business organization. Regional aggregations were required to preserve the confidentiality of the data. Financial operating statements record revenues; expenses and profit or loss of reporting units. Reporting units are the lowest disaggregated level at which financial data are available and are the basis of this publication.

For statistical purposes reporting units in radio broadcasting are divided according to their total revenue into 10 groups of approximately equal numbers. Television reporting units, because of their smaller numbers, are divided into four groups.

MÉTHODOLOGIE ET QUALITÉ DE L'ENQUÊTE

Les besoins en information de Statistique Canada, du Ministère des Communications et du CRTC furent satisfaits par l'utilisation d'un rapport annuel commun, ceci dans le but de réduire le fardeau des répondants.

Des erreurs peuvent survenir à presque toutes les phases de l'enquête. Afin de minimiser ces erreurs, les questionnaires sont révisés et comparés avec les états financiers vérifiés. Un contrôle est également effectué pendant l'entrée, l'analyse et la sortie des données.

L'enquête

L'enquête sur la radiofiffusion et la télévision est menée par Statistique Canada, en collaboration avec le Conseil de la radiodiffusion et des télécommunications canadiennes. L'enquête fournit des informations utiles pour le système de comptabilité nationale, les analystes politiques et financiers, les diffuseurs ainsi que toute autre personne ayant des intérêts en radiodiffusion et télévision. Les informations sont compilées selon l'année fiscale de la radio et télévision. 1° septembre au 31 août.

Le formulaire actuel fut développé en consultation avec Patrimoine Canadien, l'Association Canadienne des radiodiffuseurs et le CRTC. Chaque année, le formulaire est revisé et des changements sont apportés afin de refléter les requêtes d'informations et les innovations technologiques.

Les données financières de l'entreprise commerciale figurent dans le bilan, l'état des pertes et profits et l'état des mouvements de la trésorerie du rapport annuel. Les données du bilan sont présentées au tableau 3, selon l'emplacement du siège social de l'entreprise. Pour préserver la confidentialité des données, il a fallu les regrouper au niveau régional. Les états financiers servent à indiquer les recettes, les dépenses et les profits ou pertes des unités déclarantes. Celles-ci se trouvent au niveau le plus détaillé pour lequel on peut obtenir des données financières et servent de base à la présente publication.

À des fins statistiques, les unités déclarantes de la radio sont divisées en dix groupes de taille à peu près égales, selon leur revenu total. Les unités déclarantes de la télévision sont divisées en quatre groupes de même taille dû au plus petit nombre d'unités.

CTV Television Network Limited

The unique nature of CTV presents some difficulty in incorporating the network data into broadcasting statistics. For 1973 and subsequent years CTV's revenues and expenses are included with its principal affiliates on the basis of a corporate formula provided by the network. This results in an additional reporting unit in each geographic region in the television tables. However, the CTV Balance Sheet is included in Ontario data because of the location of the network's head office. As far as possible, any duplication in CTV's data with its principal affiliates has been removed. These measures are taken to reflect more accurately CTV's impact on broadcasting.

Canadian Broadcasting Corporation

Financial data of the CBC, a Crown Corporation, are separated in this publication from data of the private broadcasters. The CBC data, as in the case of private broadcasters is based on the broadcasting year ending August 31. The CBC annual report to parliament is based on a fiscal year ending March 31.

Beginning in 1993, the CBC changed their reporting procedures to more closely reflect the Canadian Association of Broadcasters uniform code of financial accounts for private broadcasters. The most significant change was a transfer of salaries and benefits from Technical expenses to Program expenses which reflected production salaries related to programming. Technical salaries and benefits are thus limited to employees engaged in maintaining studio, equipment and transmission.

Since 1994, the average number of employees and remuneration reported by CBC includes permanent, temporary and casuals whereas previous years reflected only the average number of permanent employees and the total wage remuneration for all employees regardless of employment status. It would be misleading to derive an average salary estimated based only on the number of permanent employees or to assume a growth in the workforce.

Beginning 1994, contractual employees of CBC whose contracts are of 13 weeks or more are now included as part of Total Remuneration. These salaries were not included in remuneration previously, but were reported as "Freelance expense" in the programming category. Clerical staff which directly support the programming and production sectors are classified as "Programming and Production" rather than Administration and General.

Comparisons of number of employees and total salary and benefits prior to 1994 by category with previous years cannot be made.

Due to this change in accounting, departmental expenses for the CBC cannot be compared to the years prior to 1993.

Beginning in 1995, music license fees were included in program expense, prior to this, they were included in administration. This change would account for some \$40 million for radio and television expense included in programming, This change should be taken into account when comparing data prior to 1995.

CTV Television Network Limited

La nature unique de CTV crée certaines difficultés lorsqu'il s'agit d'inclure les données de ce réseau dans les statistiques de la radiodiffusion. À partir de 1973, les recettes et les dépenses de CTV sont comprises dans celles de ses principales stations affiliées selon une répartition fournie par le réseau. Dans les tableaux de télévision, cela ajoute une unité déclarante dans chaque région géographique. Cependant, le bilan de CTV est inclus dans les données de l'Ontario du fait que son siège social se trouve dans cette province. Nous avons éliminé, autant que possible, toute répétition des données de CTV et de ses principales stations affiliées. Nous avons pris ces mesures pour refléter le plus fidèlement possible l'impact de CTV sur l'industrie de la radiodiffusion.

Société Radio-Canada

Les données financières de Radio-Canada, Société de la Couronne, sont présentées séparément de celles des stations privées. L'ensemble des données couvre l'année réglementaire soit du 1^{er} septembre au 31 août. Le rapport annuel de Radio-Canada, présenté au Parlement, est fondé sur une année financière se terminant le 31 mars.

Au début de l'année 1993, la SRC a changé ses procédures de déclaration de manière à ce qu'elles soient plus conformes au code des comptes financiers pour les radiodiffuseurs privés de l'Association Canadienne des radiodiffusions. Le changement le plus significatif consiste au transfert des salaires et bénéfices marginaux du compte des dépenses en services techniques au compte des dépenses d'émissions, réflétant les salaires de production reliés à la programmation. Ainsi, les dépenses en services techniques se limitent à ce qui concerne les studios, l'équipement et les émetteurs.

Depuis 1994, la rémunération moyenne et le nombre moyen d'effectifs déclarés par la SRC incluent les effectifs permanents, temporaires et occasionnels. Précédemment, seulement la moyenne du nombre d'effectifs permanents était déclarée et on appliquait les rémunérations salariales totales à tous les employés, peu importe leur poste. Il serait trompeur de dériver une estimation de la moyenne des rémunérations à partir du nombre d'effectifs permanents seulement ou de percevoir une croissance dans la main-d'oeuvre.

Depuis le début de 1994, les employés contractuels de la SRC dont le contrat est de 13 semaines et plus font maintenant partie des rémunérations totales. Auparavant, ces salaires n'étaient pas inclus dans la rémunération, mais étaient rapportés comme "dépenses de pigistes" dans la catégorie 'programmation". Le personnel de bureau participant directement aux secteurs de programmation et de production est répertorié dans la catégorie "Émission et production" plutôt que dans "Administration et frais généraux".

La comparaison du nombre d'employés et des rémunérations et avantages totaux avant 1994 par catégorie avec les années précédentes est impossible.

À cause de ce changement comptable, les dépenses départementales de la SRC n'ont pu être comparé pour les années antérieures à 1993.

Au début de l'année 1995, les frais pour redevances musicales faisaient parti des dépenses d'émissions, qui auparavant, étaient rapportés comme dépenses d'administration. Ce changement pourraient compter pour environ 40 millions de \$ des dépenses de radio et télévision inclues dans la programmation. Ce changement devrait être considéré dans la comparaison des données pour les années antérieures à 1995.

Analysis

Excluding the CBC, the following table shows the number of business organizations licensed and operating, the number of television stations, and the number of AM and FM radio stations. 'Other licensed' includes hockey and baseball networks which are counted as reporting units, even though they are not stations. The CTV Network has been counted as a business organization and has seven (7) reporting units, one for each geographic region in which it operates. Rebroadcasting stations have not been included in any of these counts.

Analyse

Sauf pour Radio-Canada, le tableau suivant indique le nombre d'entreprises commerciales, licenciées et exploitées, ainsi que le nombre de stations de télévision et de radio MA et MF. "Autres licenciées" comprend les réseaux de hockey et de baseball; bien que ces derniers ne soient pas des stations, ils sont considérés comme des unités déclarantes. Le réseau CTV a été compté comme entreprise commerciale et possède sept (7) unités déclarantes, une pour chaque région géographique dans laquelle il opère. Les réémetteurs n'ont été inclus dans aucun des comptes.
